

Project Key Facts

Product: PU4223CS
Aggregate: EPDM in gold & black
Area: 2000m²
Date: 2015

Adventure Play Castle, Animal Farm, Burnham on Sea

The children visiting the Adventure Play Castle at the Animal Farm in Burnham on Sea have lots of equipment to play on and climb over. With three levels, turrets, climbing walls, rope bridges, slide and agility course, the parents and carers have the assurance that they have a Leeson's rubber crumb surface underneath them. The strong, flexible system is resistant whilst being smooth at the same time plus there is no need for maintenance. The Leeson's resin can be combined with crumb rubber of any colour making the area a vibrant and welcoming space to entertain.
