

Project Key Facts

Product: LeesonBound PU4844

Aggregate: Red Granite/White Quartz Blend

Area: 75m²

Date August 2015

LeesonBound Laid Vertically

LeesonBound enhances the look of any driveway but it adds a real quality feel when installed on steps and walls. It gives the project a unique finish whilst retaining the porous properties keeping it Suds compliant. The vertical installation ensures that the flow of the design is not interrupted giving smooth, clean lines. It is a safe and low maintenance system as it contains anti slip properties and there are no loose stones.
