

Project Key Facts

Product: LeesonGrip D3149

Aggregate: Chinese Buff Bauxite

Area: 2500m²

Date: March 2021

North Queensland Intersection

Upgrades to North Queensland intersections are being funded to improve safety and network efficiency at points where major highways meet. Leeson Grip D3149/20 was chosen due to its exceptional strength and flexibility as well as its excellent track record. Its installation was fast curing meaning the road could be opened quickly minimising the disruption to traffic.
